

## Department of Energy

Germantown, MD 20874-1290

April 4, 2002

Dear Customer:

In a letter dated February 8, 2002, we notified you of the Department of Energy's (DOE) *Nuclear Energy Protocol for Research Isotopes (NEPRI)*. This protocol was established to guide the selection of research isotopes that DOE would produce in FY 2003. In that letter you were asked to electronically file an Expression of Interest through the Industry Interactive Procurement System (IIPS) in response to the NEPRI Notice of Program Interest DE-RI01-02NE00000.

We realize that many institutions have had difficulty electronically filing their Expressions of Interest through IIPS. Netscape users in particular may have experienced difficulty registering with IIPS. If you have missed the deadline for filing your Expression of Interest, and you wish DOE to produce isotopes in FY 2003 required for your research, you must fill out the following NEPRI Isotope Pre-Order Form in order to provide DOE with the same information you would have provided in your Expression of Interest.

You have several options for filing this Pre-Order Form. You may mail or FAX the completed form to:

Oak Ridge National Laboratory  
Isotope Business Office  
P.O. Box 2009  
Oak Ridge, TN 37831-8044

FAX: (865) 574-6986

Or you may find the form on the web at:

<http://www.ornl.gov/isotopes/catalog.html>

where it may be completed on line and submitted or downloaded and emailed to:

[isotopes@ornl.gov](mailto:isotopes@ornl.gov)

All completed forms must be received at Oak Ridge National Laboratory no later than May 10, 2002.

Inquiries regarding this form may be directed to:

Mr. John Pantaleo, Jr.  
Tel: (301) 903-2525  
Email: [john.pantaleo@hq.doe.gov](mailto:john.pantaleo@hq.doe.gov)

Printed with soy ink on recycled paper

This form does not apply to stable isotopes currently sold from inventory or does it apply to commercial isotopes. A list of commercial isotopes is attached. Do not use this form to request commercial isotopes.

All organizations, whether commercial or research institutions (for profit or not-for-profit), that intend to purchase research isotopes from DOE in FY 2003 must complete this form.

Sincerely,

A handwritten signature in black ink, appearing to read "Owen W. Lowe", with a long horizontal flourish extending to the right.

Owen W. Lowe, Associate Director  
for Isotopes for Medicine and Science  
Office of Nuclear Energy, Science,  
and Technology

## List of Commercial Isotopes

The following is a list of **commercial isotopes** currently available in Fiscal Year 2002. If your research requires radioisotopes *not* on this list, then you must complete the NEPRI Isotope Pre-Order Form. Do not use this form to request the following isotopes.

Americium-241  
Californium-252  
Cadmium-109  
Cobalt-60  
Germanium-68  
Iridium-192  
Nickel-63  
Sodium-22  
Selenium-75  
Strontium-82  
Iron-55
